Welcome to the Freegal™ Mobile Application.

To use Freegal, you need to be a registered cardholder of a library that has contracted the Freegal service. Once you have downloaded the App, the first thing you will see upon opening the App is a search box for libraries. In the United States, you can enter your home zip code, and a list will appear of current subscribing libraries within a 60 mile radius.   You can also enter in the name of your library or the city in which your library's main branch is located.   Outside of the United States you can enter the name of the country you are searching (example: Australia), the name of the library you are looking for (example: Edmonton), or the city in which your library's main branch is located (example: Edmonton).

Once you complete this procedure, you will see a list of libraries to choose from. Choose the one where you have a valid card. If you do not have a valid card you must get one from a library that has the Freegal Service.

We hope you enjoy the experience.
